Python

NodeJS

Java

SQL

MongoDB

Git

PROFILE

I am a full stack web developer with 1.5 years of experience, proficient in both front-end and back-end technologies, skilled in building and maintaining web applications. I have a strong understanding of HTML, CSS, JavaScript, and popular frameworks like React for the front-end, as well as experience with server-side technologies like Node.js, Java or Python/Django. Also capable of designing databases, creating APIs, and deploying applications.

EMPLOYEMNT HISTORY

System Engineer at Infosys, Pune

February 2022 — Present

- Developed a single-page web application using React, Redux, and JavaScript and enable users to access the company's resources with ease.
- Implemented a microservices architecture that improved system modularity and reduced dependencies between components
